-

ALL SET TO GO - NOW WE HAVE TO WAIT

Well thank you everyone for all your payments. We are half way there.. I will send out a reminder in November for the final payment but feel free to pay before hand if you like so you don't get caught up in the Christmas rush. Van has been booked with a trailer and as per below go Karting secured.. Mark might be looking at doing the charter so talk to him if required.. We may still have the launch available but may not

know till the last minute.. Beer of choice is still u in the air.. It will come down to the best price.. The NZ\$ isn't looking too good but rest assured we will not miss out on anything.. Well just the pub meal that we will have to settle for happy meals. LOL YEAH RIGHT..

We have had some changes due to the Qantas schedule. We will now be coming home on

Emirates After they cancelled our original flight. More will be explained in the email. But in short we get a bit more of a sleep in leaving Melbourne...

GO KARTING CONFIRMED

Go Karting has been confirmed on Wednesday 5th of February 2014 at 11:30am. Can Ben.S make it 3 in a row. With the top 3 unchanged from the last 2 meetings. We will ensure we have the Go Pros on hand to film the race from helmet Cam.. Then we can relive all the overtaking moves and crashes.

| | | GEORGE - 6.50 | | |

ODDS ARE SUBJECT TO CHANGE WITH OUT NOTICE

MEET THE NEW MEMBERS

BRADEN FALKINER

Braden was one of the first to be on the reserve way back when the first trip was booked. So he gets his chance to prove the wait was worth it.. Braden is an operations supervisor for a logistics company. As his picture states he does like a drink or 2. No sure on fishing ability and not rating good in the odds. But he may just need the first trip under his sleeve and then come back in 2015 to earn some serious points..

ADAM MALEC

Adam is well known for the PFCI points system and spread sheet. Adam works at Linfox as a Business Improvement Manager. Sort of Involved in his local Scouts we will now have someone that can light a fire with out the use of accelerants.. The odds aren't on his side so could be the one that slowly comes up as the trip gets going.. Go Karting will be his biggest proving point. Sitting 4th in the odds he could easily break into a podium finish..

JULY TESTING

I had a chance to do some July testing. Results were pretty good. Got a range of species and all good sizes. Were able to go out and back in through the Estuary which made things allot easier. A few photos of the sea state (a bit to flat for the PFCI) and one of the catches..

BRING ON PFCI 2014
