## 50 DAYS TO GO

Well with 50 days to go everything is more or less organized. Testing took place and well lets say that we may have to change the PFCI to the Cod and Estuary classic. Not much were caught so we put it down to that the fish are waiting till Feb.. Lets hope so.

Flounder were caught down at the estuary so we may have a night activity.

The fish sizes and

points have changed slightly. All this will be sent out in the January 2013 News letter.

Lachlan has cut his trip short and will be returning with George so Smells like Fish will be a team for 2013. If how big choose to defend their title it is up to The Reel Cash and Kill'em all to decide if the part or stay together. All this will be discussed on the Trip down..

## PFCI BEER CONFIRMED

We have Confirmed that New Zealand Lager will be the main choice of beer for the PFCI 2013. With extensive testing this beer pass on flavour, Alcohol % and Price. We have currently purchased 504 Cans with a budget to purchase another 108 if required. 504 you say well lets to the maths
